

Iterations	Proposed (blue circles)	Proposed + L2 (orange squares)	Proposed + L2 + L1 (green triangles)	Proposed + L2 + L1 + L0 (pink diamonds)
10 ⁰	~7	~8	~8	~40
10 ¹	~2	~8	~8	~40
10 ²	~0.5	~8	~8	~40

n	Proposed	Proposed + 1D	Proposed + 2D	Proposed + 3D
10^0	4.5	4.5	4.5	4.5
10^1	3.5	4.5	4.5	4.5
10^2	0.5	4.5	4.5	4.5

n	Noisy (blue circles)	Noisy + 1000 (green circles)	Noisy + 10000 (orange circles)	Noisy + 100000 (pink diamonds)
10^0	~8	~12	~12	~40
10^1	~3	~12	~12	~40
10^2	~1	~12	~12	~40

compute used (CPU-seconds)	naive (%)	naive + 1000 (%)	naive + 10000 (%)	naive + 100000 (%)
0.5	7	-	-	-
1.0	6	-	-	-
2.0	5	-	-	-
20.0	2	-	-	-
200.0	-	10	15	45

A scatter plot showing the relationship between 'compute used (CPU-seconds)' on the x-axis (logarithmic scale from 10⁰ to 10³) and an unlabeled y-axis (linear scale from 0 to 80). The plot compares several methods:

- Blue line with circles:** Represents a method that starts at approximately (0.5, 8) and decreases to (100, 2).
- Orange line with circles:** Represents a method that starts at approximately (0.5, 12) and decreases to (100, 10).
- Pink dashed line with diamonds:** Represents a method that maintains a constant value of approximately 45 across the entire range of compute used.
- Green dashed line with squares:** Represents a method that maintains a constant value of approximately 12 across the entire range of compute used.
- Black dotted line with diamonds:** Represents a method that starts at approximately (500, 15) and increases to (1000, 45).

The x-axis is labeled 'compute used (CPU-seconds)' and has major ticks at 10⁰, 10¹, 10², and 10³. The y-axis has major ticks at 0, 1, 2, 5, 10, 20, 40, and 80.

Scatter plot showing the number of iterations (log scale) versus compute used (CPU-seconds, log scale). The plot shows four data series: a blue line with circles, a green dashed line with diamonds, a yellow dashed line with squares, and a purple dotted line with diamonds. The blue line shows a significant decrease in iterations as compute used increases, while the other three lines remain relatively flat.
